IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF GEORGIA
ATLANTA DIVISION

MICROSOFT CORPORATION, a Washington corporation, FS-ISAC, INC., a Delaware corporation and HEALTH-ISAC, INC., a Florida corporation, Plaintiffs, v. DENIS MALIKOV AND JOHN DOES 1-7, Defendants.	)	Case No.: 1:22-CV-1328-MHC

PRELIMINARY INJUNCTION ORDER

Plaintiffs Microsoft Corp. ("Microsoft"), FS-ISAC, Inc. ("FS-ISAC") and HEALTH-ISAC, Inc. ("H-ISAC") have filed a complaint for injunctive and other relief pursuant to, *inter alia*: (1) the Computer Fraud and Abuse Act (18 U.S.C. § 1030); (2) the Electronic Communications Privacy Act (18 U.S.C. § 2701); (3) the Lanham Act (15 U.S.C. §§ 1114(a)(1), 1125(a), (c)); (4) the Georgia Computer Systems Protection Act (O.C.G.A. § 16-9-93) and (5) the common law of trespass to chattels, unjust enrichment and conversion. Plaintiffs moved *ex parte* for an

emergency temporary restraining order and an order to show cause why a preliminary injunction should not be granted pursuant to Rule 65(b) of the Federal Rules of Civil Procedure, 15 U.S.C. § 1116(a) (the Lanham Act), and 28 U.S.C. § 1651(a) (the All-Writs Act).

The Court held a hearing and issued a temporary restraining order and order to show cause why a preliminary injunction should not issue on April 8, 2022. The Court also set a preliminary injunction hearing for April 20, 2022 to allow Defendants to appear and show cause why a preliminary injunction should not issue. After the Court's temporary restraining order and order to show cause issued, Plaintiffs caused Defendants to be served by electronic means in compliance with this Court's order. *See* Doc. 28. Plaintiffs have reported to this Court that Defendants were served and did receive actual notice of the lawsuit, Complaint, and the Court's orders. Defendants have not responded to the Court's order to show cause and no Defendant appeared at the April 20, 2022 preliminary injunction hearing.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Having reviewed the papers, declarations, exhibits, and memorandum filed in support of Plaintiffs' Application for an Emergency Temporary Restraining Order, the Court hereby makes the following findings of fact and conclusions of

law:

1. This Court has jurisdiction over the subject matter of this case, and there is good cause to believe that it will have jurisdiction over all parties hereto; the Complaint states a claim upon which relief may be granted against Defendants Denis Malikov and John Does 1 through 7 ("Defendants") under the Computer Fraud and Abuse Act (18 U.S.C. § 1030), the Electronic Communications Privacy Act (18 U.S.C. § 2701), the Lanham Act (15 U.S.C. §§ 1114(a)(1), 1125(a), (c)), the Georgia Computer Systems Protection Act (O.C.G.A. § 16-9-93) and the common law of trespass to chattels, unjust enrichment and conversion.

2. Defendants were served and received notice of this lawsuit, the complaint, the Court's temporary restraining order, and the Court's April 8, 2022 Order to Show Cause. Defendants have not responded to the Court's Order to Show Cause.

3. There is good cause to believe that Defendants have engaged in and are likely to engage in acts or practices that violate the Computer Fraud and Abuse Act (18 U.S.C. § 1030), the Electronic Communications Privacy Act (18 U.S.C. § 2701), the Lanham Act (15 U.S.C. §§ 1114(a)(1), 1125(a), (c)), the Georgia Computer Systems Protection Act (O.C.G.A. § 16-9-93) and the common law of trespass to chattels, unjust enrichment and conversion, and that Microsoft is,

therefore, likely to prevail on the merits of this action.

4. Microsoft owns the registered trademarks "Microsoft," "Windows," "Excel" and "Word," used in connection with its services, software and products. FS-ISAC's members own registered trademarks in their names and logos used in connection with their online financial services.

5. There is good cause to believe that, unless Defendants are restrained and enjoined by Order of this Court, immediate and irreparable harm will result from the Defendants' ongoing violations. The evidence set forth in Plaintiffs' Brief in Support of Application for a Temporary Restraining Order and Order to Show Cause Re Preliminary Injunction ("TRO Application"), and the accompanying declarations and exhibits, demonstrates that Plaintiffs are likely to prevail on their claim that Defendants have engaged in violations of the foregoing law by:

a. intentionally accessing and sending malicious software, code, and instructions to the protected computers, operating systems, and computer networks of Microsoft, the customers of Microsoft and the members of FS-ISAC and H-ISAC, without authorization or exceeding authorization, in order to

i. infect those computers and computer networks with malicious code and thereby gain control over those computers and computer networks;

ii. attack and compromise the security of those computers and computer networks by conducting remote reconnaissance,

stealing authentication credentials, monitoring the activities of users, and using other instrumentalities of theft;

iii. steal and exfiltrate information from those computers and computer networks;

b. deploying computers and Internet domains to establish a command and control infrastructure by which means Defendants conduct illegal activities, including attacks on computers and networks, monitoring activities of users, and theft of information;

c. corrupting Microsoft's operating system and applications on victims' computers and networks, thereby using them to monitor the activities of users and steal information from them;

6. There is good cause to believe that if such conduct continues, irreparable harm will occur to Microsoft, Microsoft's customers, FS-ISAC's and H-ISAC's members and the public. There is good cause to believe that the Defendants will continue to engage in such unlawful actions if not restrained from doing so by Order of this Court.

7. There is good cause to believe that immediate and irreparable damage to this Court's ability to grant effective final relief will result from the sale, transfer, or other disposition or concealment by Defendants of command and control software that is hosted at and otherwise operates through the Internet domains listed in **Appendix A** to this Order and from the destruction or concealment of other discoverable evidence of Defendants' misconduct available via those domains, including on user computers infected by Defendants.

Based on the evidence cited in Plaintiffs' TRO Application and accompanying declarations and exhibits, Plaintiffs are likely to be able to prove that:

a. Defendants are engaged in activities that directly violate United States law and harm Microsoft, Microsoft's customers, FS-ISAC's and H-ISAC's members and the public;

b. Defendants have continued their unlawful conduct despite the clear injury to the foregoing interests;

c. Defendants are likely to delete or to relocate the command and control software at issue in Plaintiffs' TRO Application and the harmful and malicious software disseminated through the Internet domains listed in Appendix A, thereby permitting them to continue their illegal acts; and

8. Plaintiffs' request for this preliminary injunction is not the result of any lack of diligence on Plaintiffs' part, but instead based upon the nature of Defendants' unlawful conduct. Therefore, in accordance with Fed. R. Civ. P. 65(b), 15 U.S.C. § 1116(a) and 28 U.S.C. § 1651(a), good cause and the interest of justice require that this Order be Granted.

9. There is good cause to believe that Defendants have specifically directed their activities to computers of Plaintiffs customers and members located in the Northern District of Georgia, have engaged in illegal activity using the

Internet domains identified in **Appendix A** to this Order by directing malicious code and content to said computers of Plaintiffs' customers and members to further perpetrate their illegal conduct victimizing those parties. There is good cause to believe that Defendants have directed said malicious code and content through certain instrumentalities – specifically the domains and the domain registration facilities of the domain registries identified in **Appendix A**.

10. There is good cause to believe that Defendants have engaged in illegal activity by using the domain registration facilities of the domain registries identified in **Appendix A** to register the Internet domains identified in **Appendix A**, so as to deliver from those domains the malicious code, content, and commands that Defendants use to access Plaintiffs' and their customers' and members' computers, networks and services without authorization and to infect and compromise the computers of Microsoft's customers and FS-ISAC's and H-ISAC's members, and to receive the information stolen from those computers.

11. There is good cause to believe that Defendants have engaged in illegal activity by using deceptive and fake methods to steal computer users' login and/or account credentials and to use such credentials for illegal purposes.

12. There is good cause to believe that to immediately halt the injury caused by Defendants, Defendants must be prohibited from accessing Plaintiffs'

and their customers' and members' computers, networks and services without authorization and be prohibited from sending malicious code, content and commands from the Internet domains identified in **Appendix A** to the computers of Plaintiffs, their customers and their members.

13. There is good cause to believe that Defendants have engaged in illegal activity using the Internet domains identified in **Appendix A** to host the command and control software and content used to infect and compromise the computers and networks of Plaintiffs and their customers and members and to steal information from them. There is good cause to believe that to immediately halt the injury caused by Defendants, each of Defendants' current and prospective domains set forth in **Appendix A** must be immediately redirected to the Plaintiff-secured name-servers ns081a.microsoftinternetsafety.net and ns081b.microsoftinternetsafety.net, thus making them inaccessible to Defendants for command and control purposes.

14. There is good cause to believe that to immediately halt the injury, the execution of this Order should be carried out in a coordinated manner by Plaintiffs and by the domain registries identified in **Appendix A** on such date and time within five (5) business days of this Order as may be reasonably requested by Plaintiffs.

15. There is good cause to believe that Defendants may change the Internet domains that they use to conduct illegal activities, and that Microsoft may identify and update the domains listed in **Appendix A** as may be reasonably necessary to account for additional Internet domains associated with Defendants just prior to the execution of this Order and within a reasonable time thereafter should Defendants attempt to evade and defy this Order.

16. There is good cause to permit notice of the instant Order, notice of the Preliminary Injunction hearing and service of the Complaint by formal and alternative means, given the exigency of the circumstances and the need for prompt relief. The following means of service are authorized by law, satisfy Due Process, and satisfy Fed. R. Civ. P. 4(f)(3) and are reasonably calculated to notify Defendants of the instant order, the Preliminary Injunction hearing and of this action: (1) transmission by email, facsimile, mail and/or personal delivery to the contact information provided by Defendants to Defendants' domain registrars and hosting companies and as agreed to by Defendants in Defendants' domain registration and/or hosting agreements, (2) publishing notice on a publicly available Internet website, (3) by personal delivery upon Defendants, to the extent Defendants provided accurate contact information in the U.S.; and/or (4) personal delivery through the Hague Convention on Service Abroad or similar treaties upon

Defendants, to the extent Defendants provided accurate contact information in foreign countries that are signatories to such treaties.

PRELIMINARY INJUNCTION

IT IS THEREFORE ORDERED that, Defendants, Defendants' representatives, and persons who are in active concert or participation with Defendants, are preliminarily restrained and enjoined until further order of the Court from: (1) intentionally accessing and sending malicious software or code to Plaintiffs, their customers and members, and the protected computers and operating systems of Microsoft, Microsoft's customers, and FS-ISAC's and H-ISAC's members without authorization, in order to infect those computers; (2) intentionally attacking and compromising computers or computer networks of Plaintiffs, their customers and members, to monitor the activities of the owners or users of those computers or computer networks, and to steal information from those computers or networks; (3) configuring, deploying, operating, or otherwise participating in or facilitating a command and control infrastructure described in the TRO Application, including but not limited to the command and control software hosted at and operating through the Internet domains set forth in **Appendix A** and through any other component or element of the command and control infrastructure at any location; (4) stealing information from Plaintiffs, or

their customers and members; (5) misappropriating that which rightfully belongs to Plaintiffs, their customers or members, or in which Plaintiffs, their customers or members have a proprietary interest; (6) downloading or offering to download additional malicious software onto the computers of Plaintiffs, their customers or members; or (7) undertaking any similar activity that inflicts harm on Plaintiffs, their customers or members, or the public.

IT IS FURTHER ORDERED that, Defendants, Defendants' representatives, and persons who are in active concert or participation with Defendants are preliminarily restrained and enjoined until further order of the Court from (1) using and infringing Microsoft's trademarks, including specifically "Microsoft," bearing registration number 5449084, "Windows," bearing registration number 2463509 and serial number 90792752, "Excel," bearing registration numbers 2942050 and 85467589, "Word," bearing registration numbers 4355444 and 6148514 and/or other trademarks, trade names, service marks, or Internet Domain addresses or names; (2) using in connection with Defendants' activities, products, or services any false or deceptive designation, representation or description of Defendants or of their activities, whether by symbols, words, designs or statements, which would damage or injure Microsoft, or FS-ISAC's members or give Defendants an unfair competitive advantage or

result in deception of consumers; or (3) acting in any other manner which suggests in any way that Defendants' activities, products or services come from or are somehow sponsored by or affiliated with Microsoft or FS-ISAC's members, or passing off Defendants' activities, products or services as Microsoft's or FS-ISAC's members.

IT IS FURTHER ORDERED that, with respect to any currently registered Internet domains set forth in **Appendix A** to the Complaint and this Order shall be maintained by Microsoft in its account at the domain registrar MarkMonitor. The purpose of this paragraph is to ensure that Microsoft has control over the hosting and administration of the domain in its registrar account at MarkMonitor or such other registrar specified by Microsoft. Microsoft shall provide to the domain registry or registrar of record any requested information or account details necessary to effectuate the foregoing.

IT IS FURTHER ORDERED that copies of this Order, notice of the Preliminary Injunction hearing and service of the Complaint may be served by any means authorized by law, including (1) transmission by email, facsimile, mail and/or personal delivery to the contact information provided by Defendants to Defendants' domain registrars and/or hosting companies and as agreed to by Defendants in the domain registration and/or hosting agreements, (2) publishing

notice on a publicly available Internet website, (3) by personal delivery upon Defendants, to the extent Defendants provided accurate contact information in the U.S.; and/or (4) personal delivery through the Hague Convention on Service Abroad or similar treaties upon Defendants, to the extent Defendants provided accurate contact information in foreign countries that are signatories to such treaties.

IT IS SO ORDERED

Entered this 26th day of April, 2022
