

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF COLUMBIA**

Microsoft Corporation, a Washington State
Corporation, NGO-ISAC, a New York State
Non-Profit Organization,

Plaintiffs,

v.

John Does 1-2, Controlling A Computer
Network and Thereby Injuring Plaintiff and Its
Customers,

Defendants.

Civil Action No. 1:24-cv-02719-RC

**FILED UNDER SEAL PURSUANT TO
LOCAL RULE 5.1**

**DECLARATION OF SEAN ENSZ IN SUPPORT OF PLAINTIFFS' FIRST *EX PARTE*
MOTION TO SUPPLEMENT PRELIMINARY INJUNCTION ORDER**

I, Sean Enszt, declare as follows:

1. I am a Principal Investigator in Microsoft Corporation's Digital Crimes Unit ("DCU"). I make this declaration in support of Plaintiffs' First *Ex Parte* Motion to Supplement Preliminary Injunction Order. I make this declaration of my own personal knowledge or on information and belief where indicated. If called as a witness, I could and would testify competently to the truth of the matters set forth herein.

2. My declaration concerns Microsoft's continued investigation into a Russia-based cybercriminal organization comprised of unknown individuals collectively known as "Star Blizzard" that is systematically and persistently engaging in cyberattacks that include developing infrastructure and capabilities to conduct spear phishing attacks to facilitate cybercrime. Particularly, my declaration focuses on the Star Blizzard Defendants' continued violations of the existing court orders.

3. In connection with Plaintiffs' Application for an Emergency *Ex Parte* Temporary

Restraining Order and Order to Show Cause (“TRO Application”), I was involved in investigating the structure and function of the Star Blizzard Defendants’ cybercriminal, spear phishing operation, the attack methodologies of the Star Blizzard Defendants, and the harm that the Star Blizzard Defendants have inflicted on Microsoft and its customers.

STAR BLIZZARD DEFENDANTS

4. As described in my previous declaration, Microsoft investigators and I have been able to identify operational details about the Star Blizzard Defendants, including their technical infrastructure, their methods of attack, the “signatures” associated with the domains that they use to carry out their spear phishing operation, and their mechanisms to evade detection and attempts to disrupt their operation. *See* Dkt. No. 4-2 ¶ 38.

5. The Court granted Plaintiffs’ TRO Application on September 25, 2024. The same day, Plaintiffs executed the TRO by working with the third-party registries identified in Appendix A to my prior declaration. By September 27, 2024, most of the domains used by the Star Blizzard Defendants had been transferred to Microsoft. By October 3, 2024, the remaining then-known Star Blizzard-controlled domains had been transferred to Microsoft. Subsequently, I observed a decrease in activity attributable to the Star Blizzard Defendants. Additionally, by transferring the domains to Microsoft, Star Blizzard Defendants’ ability to use existing infrastructure to further attack the victim’s computers and email accounts that the Star Blizzard Defendants had spear phished has diminished. Moreover, the transfer of domains neutralized any attempted spear phishing that had not yet been completed.

6. However, because of the technical sophistication of the Star Blizzard Defendants, Microsoft investigators and I have observed that Defendants have defied the existing Preliminary Injunction Order and have tried to reestablish their cybercriminal infrastructure both by registering

new domains and by re-configuring their infrastructure and utilizing previously registered domain names¹ so that they can continue their illegal activities. Both of these categories of domains, the historical domains and the newly registered domains were observed using the same signatures as the domains previously seized.

7. To investigate and identify these new Star Blizzard Defendants' domains, I used the same investigative methods described in connection with my previous declaration in support of Plaintiffs' TRO Application.²

8. Subsequent to the issuance of the TRO and the Preliminary Injunction Orders, I have identified 75 additional domains that the Star Blizzard Defendants have registered in connection with their criminal operation subsequent to the Court's prior rulings. These domains are listed in **Appendix A** to my declaration and also attached as **Appendix A** to the Proposed Order.

9. Like my previous investigative efforts, I identified these additional domains based on the signatures that Microsoft previously attributed to the Star Blizzard Defendants. As stated in my previous declaration, the Star Blizzard Defendants have maintained consistent tactics throughout their operation and infrequently, if ever, change their methodologies. *See* Dkt. No. 4-2 ¶ 15. Accordingly, I was able to use the attack chain associated with the previous domains to

¹ In my initial declaration, I discussed that DCU investigation revealed that the Star Blizzard Defendants have returned and reused historical email accounts, if it was efficient to do so. *See* Dkt. No. 4-2 ¶ 20. The same logic applies here: the Star Blizzard Defendants will use whatever means are readily available to carry out an attack and remain operational. Here, it is efficient for the Star Blizzard Defendants to return to historical domains (that have been inactive for some time) and technical infrastructure rather than having to rebuild their entire operation from scratch (which is what registering new domains would require).

² *See generally* Dkt. No. 4-2 ¶¶ 15-43 for a discussion of the investigative methods and observed behavior of the Star Blizzard Defendants used to identify the Star Blizzard-controlled domains.

confirm that these new domains are in fact associated with the Star Blizzard Defendants. Based on my investigation, I observed that these new domains are used in connection with subsequent phishing operations in the same manner as the previously seized domains were used and following the same sequence: (1) registering deceptive domains, (2) configuring an AiTM web proxy to host deceptive domain, (3) sending phishing email using the deceptive domain to deliver malicious content through a link to Microsoft's personal cloud storage platform, OneDrive, or by adding a malicious URL in the body of an email or PDF file attachment, (4) stealing their credentials, and (5) culling mailboxes to exfiltrate sensitive data and contacts.

10. One of the signatures of the Star Blizzard Defendants is using login pages that purport to be for a Microsoft service, when in reality the login page is fraudulently designed such that the page is actually manipulated by the Star Blizzard Defendants to steal credentials. I observed the same here with respect to these new domains. For example, **Figure 1** is a screenshot of a fraudulent login page used by the Star Blizzard Defendants to harvest login credentials. Although it appears to be a Microsoft login page, the domain at the top of the screenshot is *not* a Microsoft-owned domain. Indeed, this domain is one that Plaintiffs are seeking to seize pursuant to this Motion for a Supplemental Preliminary Injunction. Likewise, **Figure 2** also depicts another instance where the login page is not a legitimate Microsoft login page, but one that is controlled by the Star Blizzard Defendants.

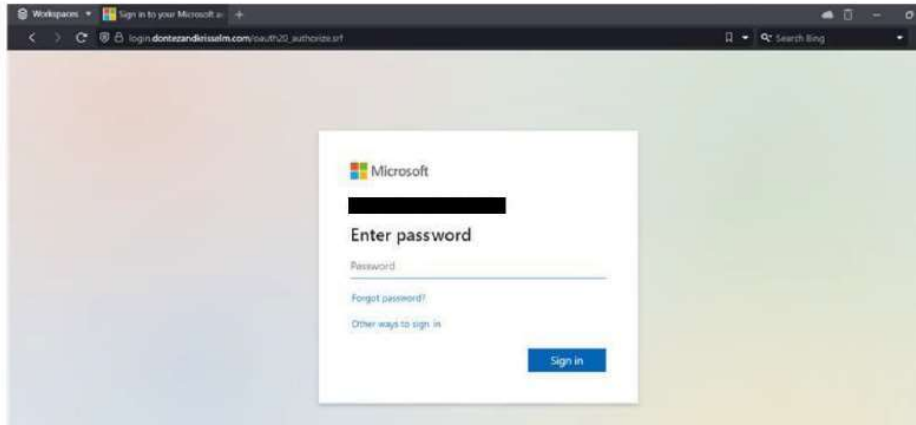

Figure 1

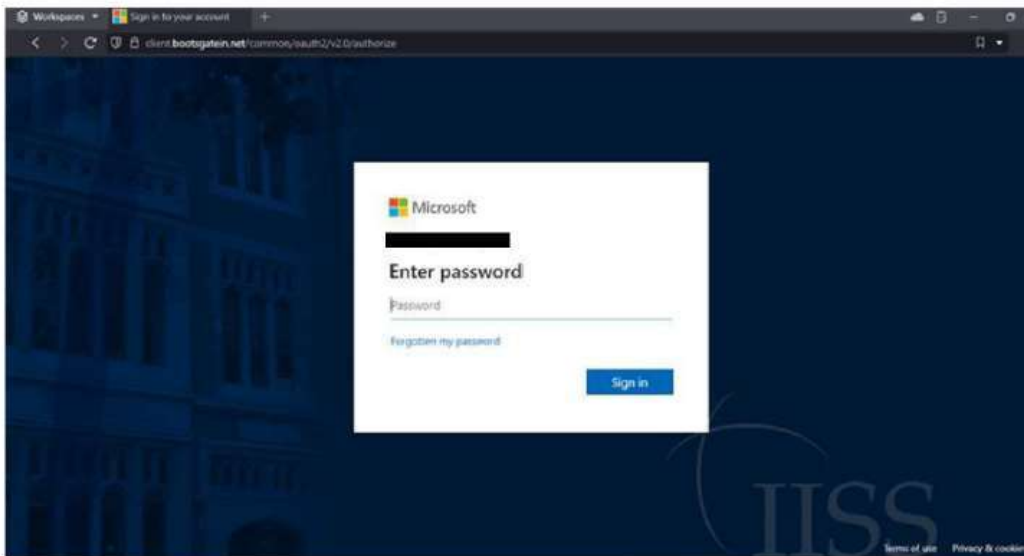

Figure 2

11. Little has changed about the operational details or infrastructure of the Star Blizzard Defendants that would prevent me from using these same methodologies to identify new domains registered by the Star Blizzard Defendants to rebuild or reestablish their technical infrastructure. Additionally, based on my investigation, Defendants utilize these new domains in the same way and to carry out the same illegal acts that Plaintiffs' based their TRO Application on. For example, the above **Figure 1** and **Figure 2** are examples of the Star Blizzard Defendants using these new domains to carry out the same phishing operation as what was previously enjoined. The irreparable harm that the Star Blizzard Defendants continue to cause remains the same as what I previously

described in my declaration.³

DISRUPTING STAR BLIZZARD'S ATTEMPTS TO REBUILD CRIMINAL OPERATION

12. As was the case with the original set of seized domains, the most vulnerable point in the Star Blizzard Defendants' operation continues to be the Internet domains through which the Star Blizzard Defendants use AiTM proxies to obtain victim authentication tokens, replay those tokens to compromise accounts, and access sensitive information from victim accounts. These domains are attached as **Appendix A** to this declaration. As explained above, these domains have already been used by the Star Blizzard Defendants to conduct their Spearphishing operation.

13. Granting Microsoft possession of these domains will enable Microsoft to channel all communications to those domains to secure servers, and thereby cut off the means by which the Star Blizzard Defendants continue to steal victim credentials. As before, once the domains are transferred to Microsoft, any time a user clicks on a link in a spear phishing email or provides their username and password, that information will be prevented from going to the Defendants at the Star Blizzard-controlled domains, because those domains will be hosted on a Microsoft-controlled, secure server, beyond the control of the Star Blizzard Defendants. This will halt the Star Blizzard Defendants' attempts to rebuild their infrastructure and their continued violations of the existing TRO and Preliminary Injunction Order. Every instance where the Star Blizzard Defendants violate the existing injunction, Microsoft, its customers, and the public are irreparably harmed.

14. Redirecting these new Star Blizzard-controlled domains will directly disrupt current infrastructure, mitigating risk and injury to Microsoft and its customers. The requested

³ See Dkt. No. 4-2 ¶¶ 47-53 for discussion of irreparable harm caused by the Star Blizzard Defendants

relief will also serve the public interest, in protecting customers of other web services companies who have consented to the relief sought in this action.

15. I believe that the most effective way to suspend the injury caused to Microsoft, its consumers, and the public, is to take the steps described in the Proposed Order. This relief will significantly hinder the Star Blizzard Defendants' ability to compromise additional accounts and identify new potential victims to target. In the absence of such action, the Defendants will be able to continue using this infrastructure to target new accounts, exposing potential new victims to Star Blizzard's malicious activities.

16. The Star Blizzard Defendants' techniques are designed to resist technical mitigation efforts, eliminating the ability to curb the injury purely through technical means. For example, once domains in the Star Blizzard Defendants' active infrastructure become known to the security community, the Defendants abandon that infrastructure and move to new infrastructure that is used to continue Defendants' efforts to compromise accounts of new victims. Indeed, this is exactly what the Star Blizzard Defendants are doing here by using a new set of domains to conduct their criminal activity.

17. For these reasons, providing notice to the Star Blizzard Defendants in advance of redirection of the domains at issue would render attempts to disable the infrastructure futile. The same reasons that existed supporting the grant of Plaintiffs' prior request to seize these domains without advanced notice to the Star Blizzard Defendants exist here. *See* Dkt. No. 4-2 ¶¶ 58-62; Dkt. No. 12 at 6.

18. Accordingly, and for all these reasons, I believe that the only way to mitigate injury and disrupt the most recent, active Star Blizzard infrastructure, is to redirect the domains at issue prior to providing notice to the Defendants.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct to the best of my knowledge.

Executed on this 4th day of November 2024 in Redmond, Washington.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Sean Ensz', with a stylized flourish at the end.

Sean Ensz
