EXHIBIT 1

Selena Larson

Staff Threat Researcher | Cyber Threat Intelligence | Cybercrime Analysis

SUMMARY

Staff cybersecurity researcher with deep expertise in cybercrime ecosystems, malware attack chains, CTI program development, and ICS/OT threat analysis. More than 10 years of experience uncovering threat actor behavior, leading intelligence strategy, and producing high-impact research that informs executive decision-making and enhances organizational security posture. Highly skilled in distilling complex threats into clear insights for technical and non-technical audiences through reporting, podcasts, public speaking, and cross-functional leadership.

PROFESSIONAL EXPERIENCE

Proofpoint
Staff Threat Researcher & Lead, Intelligence Analysis and Strategy | Apr 2024 – Present | Washington, DC

- Lead analytical and strategic direction for cybercrime-focused threat research.
